ASSESSMENT SCORES

- **NECAP**- NECAP Science scores are in Performance Plus (P+) two weeks after the results are released in the Fall.

- **Smarter Balance** will be released to PerformancePlus and details will follow.

The following four are downloaded each Wednesday or Thursday and uploaded to PerformancePlus the following week.

This would go much smoother if all schools would submit the SASIDs and DOBs to the companies for each of the students when using these following programs.

- **NWEA**-The NHDOE uploads NWEA scores once a week (this will include all schools that have closed their window on the assessment).

- **DIBELS** -The NHDOE uploads DIBELS once a week for those using Oregon's reporting. (MClass data is now being uploaded on October 1st and May 1st and as requested. – check with Lisa Kaim, Lisa.Kaim@doe.nh.gov

- **AIMSWeb Benchmark and AIMSWeb Progress Monitoring** - The NHDOE uploads once a week.

- **STAR data is uploaded once a week.** The information for allowing your STAR data to go to the NHDOE and then Performance Plus can be found in the NH Network under the Analyzing Student Data network.

You must have signed a release form with the NHDOE to grant permission to the NHDOE to receive the data from NWEA, Aimsweb, Dibels and Dibelsnet for upload to PerformancePlus. You can find the release form and instructions in the NH Network under the Analyzing Student Data network.

- **ACCESS For ELL** (English Language Learners)-The NHDOE uploads this annually in May.

STUDENTS' DEMOGRAPHIC DATA, COURSES and CLASSES

Students are connected to your schools and classes by using data you send the Department through the i4see system and the EIS system. Beginning late August to early September, student roster data is sent to P+ based on the Incoming Student Roster file. Beginning October 22nd school rosters are uploaded based on the BOY (Beginning of Year submission). These two submissions allow us to connect a student to your school(s). This data is sent to P+ nightly. <u>Only batches that are verified or certified are sent to them</u>. Additionally, students who have a record in Submission Student Class are included the data sent to P+. This data connects a student to a specific class. This data is also uploaded every night.

- **Course and class uploads** are done nightly. Courses are only uploaded if students are assigned to the course in the StudentClassSubmission (or directly via EIS). Please know as the list of students change in your class uploads the roster will be updated the next day in P+.

- **Attendance, discipline, town responsible, promotion, expulsion, entry date, number of schools attended and homeless** is uploaded with EOY at the end of the school year. So you cannot run filters on these fields during the current year, you can only run these filters for previous years.

- **Town responsible, entry date, and homeless** are uploaded with EOY and then updated with the BOY in October.

- **Title 1 for Math and Reading, and Reading Recovery** are uploaded with EOY Academic at the end of the school year.

- **P+ IEP indicator** is downloaded nightly from NHSEIS beginning in October (for the current year) and used to update P+. Additionally, the IEP status is updated at the end of each year in August (for the previous year) based upon the i4see submissions (sped public and sumbissionEOY).

- **Free and Reduced Lunch** is uploaded with the Fall F&R report beginning November 15th.

- **21st Century Community Learning Center** data is uploaded in January-February for schools that submit data then. For all 21st Century schools data is uploaded at the end of the school year in July.

- **Limited English Proficient (LEP)** data is submitted on November 15th.

November 24, 2014

Upload Frequency for Assessment and Demographic Data in Performance Tracker

- **Career and Technical Education (CTE)** data is pulled from the CaTE database on a nightly basis.

- **Interventions** are managed by locally by school districts.

- **College** data from the National Clearing House is updated August and September for AP, SAT, and PSAT/NMSQT student data. The end of January data is uploaded for the October PSAT and Fall SAT.
